INGREDIENTS:

- 6 CUPS WATER
- 1/2 CUP BLUE DAWN DISH DETERGENT
- 1/2 CUP CORN STARCH
- 1 TBSP BAKING POWDER
- 1 TBSP GLYCERIN or CORN SYRUP

Need a bubble wand? Make one at home!

You'll need two straws and a piece of yarn or thick string.

Lace the string through both straws.

Tie a knot to create a closed loop.

Stretch your new rectangle out. Use the straws as handles as you experiment with your homemade bubble wand.

1

Ask your adult if it's a good time to make amazing bubbles. Gather your supplies before you begin.

2

Dissolve the corn starch in the water by stirring really well. Carefully stir in the rest of the ingredients trying to avoid making the mixture frothy.

3

Let your bubble mixture sit for at least an hour. If you see the corn starch settling at the bottom, give it a gentle stir. It's okay if some of the corn starch remains undissolved.

4

After letting your solution sit, pour it into a large pan and start making bubbles! The more you play with the mixture the bigger and stronger your bubbles will be!
